

# DEGROOT'S SPIRE ARBORVITAE

*Thuja occidentalis 'Degroot's Spire'*

**Height:** 6-8'      **Spread:** 2-4'

**Location:** Zone 3, sun to part shade

**Shape:** Narrow, pyramidal

**Foliage:** Thick, rich green

**Notes:** This dwarf, slow-growing, ever-green shrub with an upright, pyramidal habit has rich green foliage that takes on a purple cast in winter. Twisted texture on pyramidal form tolerates shearing nicely for a more tailored column. Cold hardy and reliable for matched pairs, or lined up as screen hedge.

# HETZ MIDGET ARBORVITAE

*Thuja occidentalis 'Hetz Midget'*

**Height:** 2-3'      **Spread:** 2-3'

**Location:** Zone 3, sun to part shade.

**Shape:** Slow-growing dense, globe.

**Foliage:** Dark green, no shearing needed.

**Notes:** Dense, globe-shaped form that requires no shearing to maintain shape. Rich green needles are arranged in flat layered sprays. Its low, compact form make this a popular accent plant for mixed borders or containers. Very adaptable, tough, durable plant.
