

YELLOW RIBBON ARBORVITAE

Thuja occidentalis 'Yellow Ribbon'

Height: 8-10' **Spread:** 2-3'

Location: Zone 4, sun to part shade

Shape: Columnar, narrow

Foliage: Golden-yellow year round

Notes: Good specimen or accent. Hedge, background, or foundation plant. Taller plants make a good screen. Its foliage is a true 50/50 mix of dark emerald green and super bright golden yellow - green on the inner half, and golden on the outer half. When grown, this arborvitae is hard to beat as far as striking beauty goes.
