

# FOREST FOUNTAIN HEMLOCK

*Tsuga canadensis* 'Forest Fountain'

**Height:** 10'      **Spread:** 4-5'

**Location:** Zone 4, light shade to shade.

**Shape:** Small, upright tree, upward arching branches.

**Foliage:** Green year round.

**Notes:** A lovely, small upright tree with upward arching branches giving it a fountain like appearance. Best grown in normal garden soil in partial shade. An excellent choice for a low maintenance hedge or screen. Many dense branches form a bushy column of evergreen foliage requiring little pruning. Retains dark green foliage color through winter.

# GENTSCH WHITE HEMLOCK

*Tsuga canadensis* 'Gentsch White'

**Height:** 2-4'      **Spread:** 3-5'

**Location:** Zone 4, light shade to shade.

**Shape:** Dense mound.

**Foliage:** Green with creamy white tips.

**Notes:** Variegated, globose shrub. Graceful mounding foliage has creamy-white tipped new growth. Color most effective in fall and winter.
