

BLUE STAR JUNIPER

Juniperus squamata 'Blue Star'

Height: 2' **Spread:** 4'

Location: Zone 4, sun to light shade

Shape: Mounded, irregular

Foliage: Steel blue

Notes: Attractive sparkling foliage on dense spreading and mounding branches. Creates a colorful contrast. Use as a rock garden or low border plant. Prefers the cooler climates of the Northern States. Slow growing.

BROADMOOR JUNIPER

Juniperus sabina 'Broadmoor'

Height: 12-18" **Spread:** 4-6'

Location: Zone 3, sun, well-drained soil

Shape: Dense, mounded

Foliage: Green with bluish cast

Notes: A dense mound of graceful, spreading branches holding bright green foliage creates an excellent choice for a large scale ground cover. Best in sun and well drained soil. Resistant to Juniper Blight.
