

JAPANESE GARDEN DWARF JUNIPER

Juniperus procumbens 'Nana'

Height: 8-12" **Spread:** 3-5'

Location: Zone 4, full sun

Shape: Mounded, spreading

Foliage: Blue-green, layered

Notes: A ground-hugging evergreen that creates a dense mound of branches that radiate from the center. Its foliage and form is best when left unsheared. This dwarf evergreen with beautiful blue-green foliage makes a nice accent when planted in a rock garden.

MANEY JUNIPER

Juniperus chinensis 'Maneyi'

Height: 4-5' **Spread:** 5-6'

Location: Zone 3, full sun, salt tolerant

Shape: Dense, upright, spreading

Foliage: Blue-gray

Notes: A semi-erect, spreading, bushy Juniper with a blue cast to its foliage. Handsome appearance, medium sized for any planting. Grey green berries and one of the hardiest evergreens for the landscape. Salt tolerant.
