

LITTLE GEM SPRUCE (ON STANDARD)

Picea abies 'Little Gem'

Height: 18” **Spread:** 18”

Location: Zone 2, sun

Shape: Dense, flat-topped globe grafted on a standard

Foliage: Rich green needles, evergreen.

Notes: Rich green needles on crowded branches form a dense, flat topped globe. This dwarf evergreen conifer requires practically no maintenance. A stunning accent to add interesting detail to the landscape. Makes a good support plant for sheared topiary specimens.
