

ARCTIC FIRE DOGWOOD

Cornus stolonifera 'Farrow'

Height: 3-4' **Spread:** 3-4'

Location: Zone 3, sun to part shade.

Shape: Compact, non-suckering.

Foliage: Green, maroon in fall, dark red stems in the winter.

Notes: This variety is dwarf in form, with white flowers in May and June and sensational color in the winter with its intense red stems. This is an excellent substitution for 'Red Gnome.'

CARDINAL REDTWIG DOGWOOD

Cornus sericea 'Cardinal'

Height: 8-10' **Spread:** 8-10'

Location: Zone 3, sun to part shade.

Shape: Rounded, upright

Foliage: Green, red-purple in fall, bright red stems in winter

Notes: The Cardinal Red Osier Dogwood was selected for its bright red winter twig color. A hybrid Dogwood that was developed by the University of Minnesota in 1986. 2004 Plant of Merit.
