

# MOUNT AIRY FOTHERGILLA

*Fothergilla major* 'Mount Airy'

**Height:** 5-6'      **Spread:** 4-5'

**Location:** Zone 4, sun to shade.

**Shape:** Upright

**Foliage:** Dark blue-green, turning yellow-red in fall.

**Notes:** Vigorous, producing an abundance of bottlebrush-like flowers in spring before or just as the foliage is emerging. Dark blue-green leaves turn yellow to orange to red to purple in late fall. Very dependable. Faster growing than other selections. Best grown in normal garden soil in full sun to partial shade.
