

GOLDEN MOCKORANGE

Philadelphus coronarius 'Aureus'

Height: 3-6' **Spread:** 3-5'

Location: Zone 4, sun, drought tolerant

Shape: Compact, rounded

Foliage: Golden all season

Notes: Popular golden leaf shrub with fragrant, single white flowers in June and nice compact form. A good accent plant.

SNOW DWARF MOCKORANGE

Philadelphus x 'Snow Dwarf'

Height: 2-3' **Spread:** 2-3'

Location: Zone 4, full sun to light shade

Shape: Dwarf, compact, upright

Foliage: Dark green

Notes: 'Snow Dwarf' is a hybrid mockorange cultivar that is noted for its dwarf growing habit and its abundant bloom of white flowers in spring. Tolerates a wide range of soils except poorly-drained ones. Prefers moist, organically rich soils. Flowers appear on prior year's growth, so prune as needed immediately after flowering.
