

# REGENT SERVICEBERRY

*Amelanchier alnifolia* 'Regent'

**Height:** 4-6'                      **Spread:** 4-8'

**Location:** Zone 2, sun to part shade, drought tolerant

**Shape:** Upright, mounded

**Foliage:** Gray-green, yellow to red in fall

**Notes:** A nicely shaped shrub form of Juneberry. Large white flowers. The dark purple to black fruit is sweet and good for eating and making jelly. Xeriscape plant.
