

CUTLEAF STAGHORN SUMAC

Rhus typhina 'Laciniata'

Height: 8-12' **Spread:** 12-15'

Location: Zone 3, sun to part shade, versatile

Shape: Wide spreading

Foliage: Bright green, orange to red in fall

Notes: Intense orange, yellow and scarlet fall coloring on the deeply cut, fern-like foliage. Intriguing winter silhouette created by the upright, multi-stemmed habit. Excellent specimen tree.

FRAGRANT SUMAC

Rhus aromatica

Height: 5-6' **Spread:** 6-8'

Location: Zone 3, sun to part shade, versatile, native

Shape: Spreading

Foliage: Aromatic green, scarlet in fall

Notes: Native species with small yellow flowers in May, followed by bright red berry clusters. Useful to control erosion on banks or hillsides.
