

WINTERBERRY

Ilex verticillata

Location: Zone 4, sun to shade

Shape: Compact, rounded

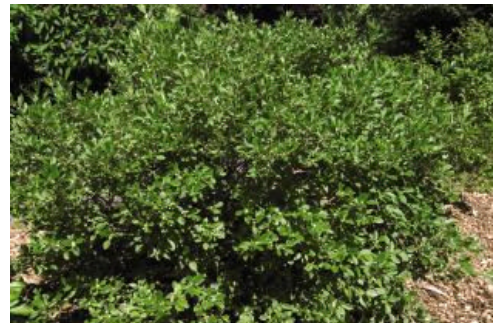

Foliage: Dark glossy green, bronze to purple in fall

Notes: 'Afterglow' is a female selection that blooms early with large orange-red to orange fruit. 'Jim Dandy' is a male selection used for pollination. 'Red Sprite' is a female selection that is about half the size of the species with bright red, persistent fruit. Flowers are small and numerous.
