

PURPLE PRINCE CRABAPPLE

Malus 'Purple Prince'

Height: 20' **Spread:** 20'

Location: Zone 4, sun.

Shape: Rounded

Foliage: Purple turning bronze-green in fall.

Notes: An excellent purple-leaf crabapple, that is more narrow and faster growing than 'Prairifire'. Carmine red buds open to single red flowers. Excellent resistance to scab, fireblight and cedar-apple rust, and good resistance to mildew.
