

PURPLE ROBE ROBINIA

Robinia pseudoacacia 'Purple Robe'

Height: 40-50' **Spread:** 25-35'

Location: Zone 3, sun, drought tolerant.

Shape: Rounded, oval crown.

Foliage: Bronze-green, yellow in fall.

Notes: A medium-sized upright tree, growing 40 feet in height with a compact, rounded form. The trunk is long and straight with an interesting branching pattern. It is not a tree for stressful planting situations in dry climates. Should be pruned in late summer to avoid "bleeding."
