

# WEeping ARCTIC BLUE WILLOW

*Salix purpurea 'Pendula'*

**Height:** 6-8'      **Spread:** 4-6'

**Location:** Zone 4, full sun, moist soil.

**Shape:** Weeping branches.

**Foliage:** Slender blue-green leaves on flexible maroon branches.

**Notes:** Deciduous shrub with long purple stems and green foliage with a bluish color underneath. Grafted on a trunk, makes an interesting patio tree.

# WEeping PUSSY WILLOW

*Salix caprea pendula*

**Height:** 5-6'      **Spread:** 5-8'

**Location:** Zone 4, sun to part shade, moderately drought tolerant.

**Shape:** Weeping

**Foliage:** Green

**Notes:** This is an excellent weeping willow for small gardens. Soft, silky catkins bloom in spring.
